

Audit and Assurance (INT) (F8) June & December 2013

This syllabus and study guide is designed to help with planning study and to provide detailed information on what could be assessed in any examination session.

THE STRUCTURE OF THE SYLLABUS AND STUDY GUIDE

Relational diagram of paper with other papers

This diagram shows direct and indirect links between this paper and other papers preceding or following it. Some papers are directly underpinned by other papers such as Advanced Performance Management by Performance Management. These links are shown as solid line arrows. Other papers only have indirect relationships with each other such as links existing between the accounting and auditing papers. The links between these are shown as dotted line arrows. This diagram indicates where you are expected to have underpinning knowledge and where it would be useful to review previous learning before undertaking study.

Overall aim of the syllabus

This explains briefly the overall objective of the paper and indicates in the broadest sense the capabilities to be developed within the paper.

Main capabilities

This paper's aim is broken down into several main capabilities which divide the syllabus and study guide into discrete sections.

Relational diagram of the main capabilities

This diagram illustrates the flows and links between the main capabilities (sections) of the syllabus and should be used as an aid to planning teaching and learning in a structured way.

Syllabus rationale

This is a narrative explaining how the syllabus is structured and how the main capabilities are linked. The rationale also explains in further detail what the examination intends to assess and why.

Detailed syllabus

This shows the breakdown of the main capabilities (sections) of the syllabus into subject areas. This is the blueprint for the detailed study guide.

Approach to examining the syllabus

This section briefly explains the structure of the examination and how it is assessed.

Study Guide

This is the main document that students, tuition providers and publishers should use as the basis of their studies, instruction and materials. Examinations will be based on the detail of the study guide which comprehensively identifies what could be assessed in any examination session. The study guide is a precise reflection and breakdown of the syllabus. It is divided into sections based on the main capabilities identified in the syllabus. These sections are divided into subject areas which relate to the sub-capabilities included in the detailed syllabus. Subject areas are broken down into sub-headings which describe the detailed outcomes that could be assessed in examinations. These outcomes are described using verbs indicating what exams may require students to demonstrate, and the broad intellectual level at which these may need to be demonstrated (*see intellectual levels below).

Learning Materials

ACCA's Approved Learning Partner - content (ALP-c) is the programme through which ACCA approves learning materials from high quality content providers designed to support study towards ACCA's qualifications.

ACCA has one Platinum Approved Learning Partner content which is BPP Learning Media. In addition, there are a number of Gold Approved Learning Partners - content.

For information about ACCA's

Approved Learning Partners - content, please go ACCA's Content Provider Directory.

The Directory also lists materials by Subscribers, these materials have not been quality assured by ACCA but may be helpful if used in conjunction with approved learning materials. You will also find details of Examiner suggested Additional Reading which may be a useful supplement to approved learning materials.

ACCA's Content Provider Directory can be found here – http://www.accaglobal.com/learningproviders/alpc/content_provider_directory/search/.

Relevant articles will also be published in Student Accountant.

INTELLECTUAL LEVELS

The syllabus is designed to progressively broaden and deepen the knowledge, skills and professional values demonstrated by the student on their way through the qualification.

The specific capabilities within the detailed syllabuses and study guides are assessed at one of three intellectual or cognitive levels:

- Level 1: Knowledge and comprehension
- Level 2: Application and analysis
- Level 3: Synthesis and evaluation

Very broadly, these intellectual levels relate to the three cognitive levels at which the Knowledge module, the Skills module and the Professional level are assessed.

Each subject area in the detailed study guide included in this document is given a 1, 2, or 3 superscript, denoting intellectual level, marked at the end of each relevant line. This gives an indication of the intellectual depth at which an area could be assessed within the examination. However, while level 1 broadly equates with the Knowledge module, level 2 equates to the Skills module and level 3 to the Professional level, some lower level skills can continue to be assessed as the student progresses through each module and level. This reflects that at each stage of study there will be a requirement to broaden, as well as deepen capabilities. It is also possible that occasionally

some higher level capabilities may be assessed at lower levels.

LEARNING HOURS

The ACCA qualification does not prescribe or recommend any particular number of learning hours for examinations because study and learning patterns and styles vary greatly between people and organisations. This also recognises the wide diversity of personal, professional and educational circumstances in which ACCA students find themselves.

Each syllabus contains between 23 and 35 main subject area headings depending on the nature of the subject and how these areas have been broken down.

GUIDE TO EXAM STRUCTURE

The structure of examinations varies within and between modules and levels.

The Fundamentals level examinations contain 100% compulsory questions to encourage candidates to study across the breadth of each syllabus.

The Knowledge module is assessed by equivalent two-hour paper based and computer based examinations.

The Skills module examinations are all paper based three-hour papers. The structure of papers varies from ten questions in the *Corporate and Business Law* (F4) paper to four 25 mark questions in *Financial Management* (F9). Individual questions within all Skills module papers will attract between 10 and 30 marks.

The Professional level papers are all three-hour paper based examinations, all containing two sections. Section A is compulsory, but there will be some choice offered in Section B.

For all three hour examination papers, ACCA has introduced 15 minutes reading and planning time.

This additional time is allowed at the beginning of each three-hour examination to allow candidates to read the questions and to begin planning their answers before they start writing in their answer

books. This time should be used to ensure that all the information and exam requirements are properly read and understood.

During reading and planning time candidates may only annotate their question paper. They may not write anything in their answer booklets until told to do so by the invigilator.

The Essentials module papers all have a Section A containing a major case study question with all requirements totalling 50 marks relating to this case. Section B gives students a choice of two from three 25 mark questions.

Section A of each of the Options papers contains 50-70 compulsory marks from two questions, each attracting between 25 and 40 marks. Section B will offer a choice of two from three questions totalling 30-50 marks, with each question attracting between 15 and 25 marks.

The pass mark for all ACCA Qualification examination papers is 50%.

GUIDE TO EXAMINATION ASSESSMENT

ACCA reserves the right to examine anything contained within the study guide at any examination session. This includes knowledge, techniques, principles, theories, and concepts as specified.

For the financial accounting, audit and assurance, law and tax papers except where indicated otherwise, ACCA will publish *examinable documents* once a year to indicate exactly what regulations and legislation could potentially be assessed within identified examination sessions..

For paper based examinations regulation *issued* or legislation *passed* on or before 30th September annually, will be assessed from June 1st of the following year to May 31st of the year after. Please refer to the examinable documents for the paper (where relevant) for further information.

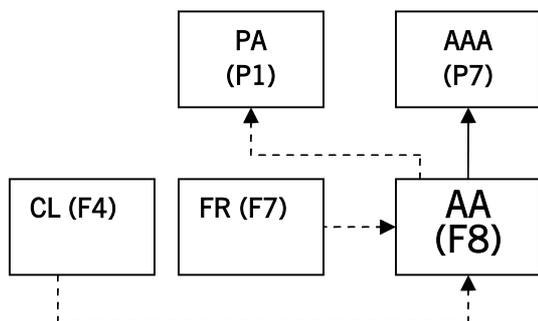

Regulation issued or legislation passed in accordance with the above dates may be examinable even if the *effective* date is in the future.

The term issued or passed relates to when regulation or legislation has been formally approved.

The term effective relates to when regulation or legislation must be applied to an entity transactions and business practices.

The study guide offers more detailed guidance on the depth and level at which the examinable documents will be examined. The study guide should therefore be read in conjunction with the examinable documents list.

Syllabus

AIM

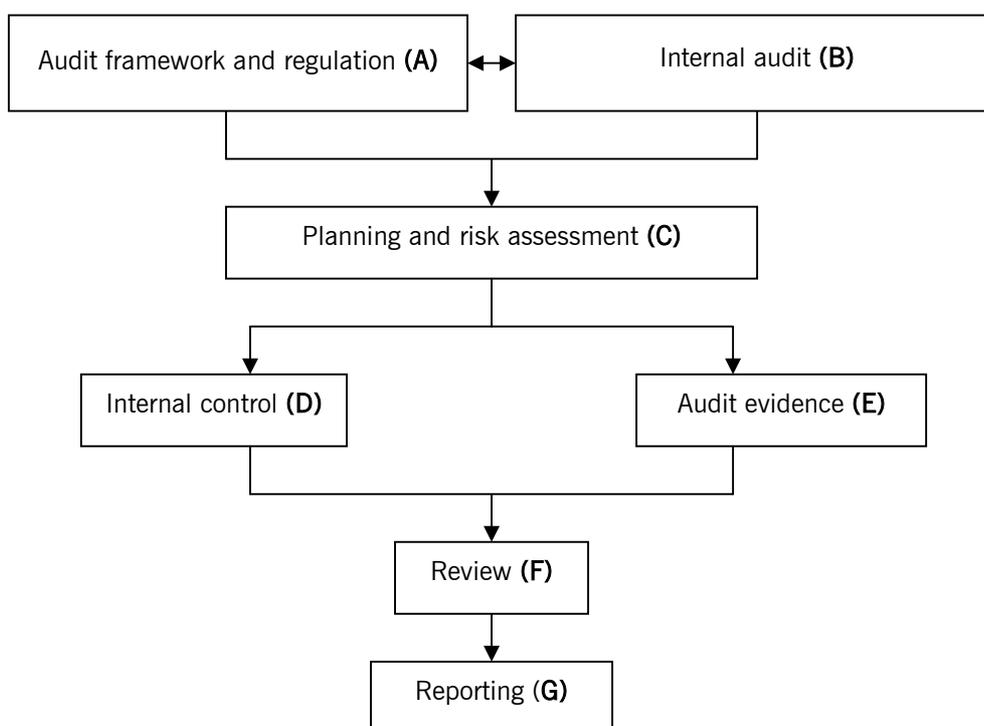

To develop knowledge and understanding of the process of carrying out the assurance engagement and its application in the context of the professional regulatory framework.

MAIN CAPABILITIES

On successful completion of this paper, candidates should be able to:

- A** Explain the nature, purpose and scope of assurance engagements including the role of the external audit and its regulatory and ethical framework
- B** Explain the nature of internal audit and describe its role as part of overall performance management and its relationship with the external audit
- C** Demonstrate how the auditor obtains an understanding of the entity and its environment, assesses the risk of material misstatement (whether arising from fraud or other irregularities) and plans an audit of financial statements
- D** Describe and evaluate information systems and internal controls to identify and communicate control risks and their potential consequences, making appropriate recommendations
- E** Identify and describe the work and evidence required to meet the objectives of audit engagements and the application of the International Standards on Auditing
- F** Evaluate findings and modify the audit plan as necessary
- G** Explain how the conclusions from audit work are reflected in different types of audit report, explain the elements of each type of report.

RELATIONAL DIAGRAM OF MAIN CAPABILITIES

RATIONALE

The Audit and Assurance syllabus is essentially divided into seven areas. The syllabus starts with the nature, purpose and scope of assurance engagements, including the statutory audit, its regulatory environment, and introduces professional ethics relating to audit and assurance. It then leads into internal audit, including the scope of internal audit as well as the differences between internal audit and external audit. The syllabus then covers a range of areas relating to an audit of financial statements. These include planning and risk assessment, evaluating internal controls, audit evidence, and a review of the financial statements. The final section then deals with reporting, including statutory audit reports, management reports, and internal audit reports.

DETAILED SYLLABUS

A. Audit framework and regulation

1. The concept of audit and other assurance engagements
2. Statutory audits
3. The regulatory environment and corporate governance
4. Professional ethics and ACCA's Code of Ethics and Conduct

B. Internal audit

1. Internal audit and corporate governance
2. Differences between the external auditor and the internal audit function
3. The scope of the internal audit function
4. Outsourcing the internal audit function
5. Internal audit assignments

C. Planning and risk assessment

1. Objective and general principles
2. Assessing the risks of material misstatement

3. Understanding the entity and its environment
4. Materiality, fraud, laws and regulations
5. Analytical procedures
6. Planning an audit
7. Audit documentation

D. Internal control

1. Internal control systems
2. The use of internal control systems by auditors
3. Transaction cycles
4. Tests of control
5. The evaluation of internal control components
6. Communication on internal control

E. Audit evidence

1. The use of assertions by auditors
2. Audit procedures
3. The audit of specific items
4. Audit sampling and other means of testing
5. Computer-assisted audit techniques
6. The work of others
7. Not-for-profit organisations

F. Review

1. Subsequent events
2. Going concern
3. Written representations
4. Audit finalisation and the final review

G. Reporting

1. Audit reports

2. Reports to management
3. Internal audit reports

APPROACH TO EXAMINING THE SYLLABUS

The syllabus is assessed by a three-hour paper-based examination, consisting of five compulsory questions. The bulk of the questions will be discursive but some questions involving computational elements will be set from time to time.

The questions will cover all areas of the syllabus.

Question 1 will be a scenario-based question worth 30 marks. Question 2 will be a knowledge-based question worth 10 marks. Questions 3, 4 and 5 will be worth 20 marks each.

Study Guide

A AUDIT FRAMEWORK AND REGULATION

1. The concept of audit and other assurance engagements

- a) Identify and describe the objective and general principles of external audit engagements.^[2]
- b) Explain the nature and development of audit and other assurance engagements.^[1]
- c) Discuss the concepts of accountability, stewardship and agency.^[2]
- d) Discuss the concepts of true and fair presentation and reasonable assurance.^[2]
- e) Explain reporting as a means of communication to different stakeholders.^[1]
- f) Define and provide the objectives of an assurance engagement.^[1]
- g) Explain the five elements of an assurance engagement.^[2]
- h) Explain the level of assurance provided by an external audit and other review engagements.^[1]

2. External audits

- a) Describe the regulatory environment within which external audits take place.^[1]
- b) Discuss the reasons and mechanisms for the regulation of auditors.^[2]
- c) Explain the statutory regulations governing the appointment, rights, removal and resignation of auditors.^[1]
- d) State the objectives and principle activities of external audits and assess its value (e.g. in assisting management to reduce risk and improve performance).^[1]
- e) Describe the limitations of external audits.^[1]

3. The regulatory environment and corporate governance

- a) Explain the development and status of International Standards on Auditing (ISAs).^[1]
- b) Explain the relationship between International Standards on Auditing and national standards.^[1]
- c) Discuss the objective, relevance and importance of corporate governance.^[2]
- d) Discuss the need for auditors to communicate with those charged with governance.^[2]
- e) Discuss the provisions of international codes of corporate governance (such as OECD) that are most relevant to auditors.^[2]
- f) Describe good corporate governance requirements relating to directors' responsibilities (e.g. for risk management and internal control) and the reporting responsibilities of auditors.^[1]
- g) Analyse the structure and roles of audit committees and discuss their benefits and limitations.^[2]
- h) Explain the importance of internal control and risk management.^[1]
- i) Compare the responsibilities of management and auditors for the design and operation of systems and controls.^[2]

4. Professional ethics and ACCA's Code of Ethics and Conduct

- a) Define and apply the fundamental principles of professional ethics of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.^[2]
- b) Define and apply the conceptual framework, including the threats to the fundamental principles of self-interest, self-review, advocacy, familiarity, and intimidation.^[2]
- c) Discuss the safeguards to offset the threats to the fundamental principles.^[2]

- d) Describe the auditor's responsibility with regard to auditor independence, conflicts of interest and confidentiality.^[1]
- e) Discuss the preconditions, requirements of professional ethics, and other requirements in relation to the acceptance of new audit engagements.^[2]
- f) Discuss the process by which an auditor obtains an audit engagement.^[2]
- g) Explain the importance of engagement letters and state their contents.^[1]

B INTERNAL AUDIT

1. Internal audit and corporate governance

- a) Discuss the factors to be taken into account when assessing the need for internal audit.^[2]
- b) Discuss the elements of best practice in the structure and operations of internal audit with reference to appropriate international codes of corporate governance.^[2]

2. Differences between the external auditor and the internal audit function

- a) Compare and contrast the role of external and internal audit.^[2]

3. The scope of the internal audit function

- a) Discuss the scope of internal audit and the limitations of the internal audit function.^[2]

4. Outsourcing the internal audit function

- a) Explain the advantages and disadvantages of outsourcing the internal audit function.^[1]

5. Internal audit assignments

- a) Discuss the nature and purpose of internal audit assignments including value for money, IT, best value and financial.^[2]
- b) Discuss the nature and purpose of operational internal audit assignments including procurement.^[2]

C PLANNING AND RISK ASSESSMENT

1. Objective and general principles

- a) Identify the overall objectives of the auditor.^[2]
- b) Identify and describe the need to plan and perform audits with an attitude of professional scepticism, and to exercise professional judgment.^[2]
- c) Explain the need to conduct an audit in accordance with ISAs.^[1]

2. Assessing audit risks

- a) Explain the components of audit risk.^[1]
- b) Explain the audit risks in the financial statements and explain the auditor's response to each risk.^[2]

3. Understanding the entity and its environment

- a) Explain how auditors obtain an initial understanding of the entity and its environment.^[2]
- b) Describe risk assessment procedures for the identification and assessment of audit risks.^[2]

4. Materiality, fraud, laws and regulations

- a) Define and explain the concepts of materiality and performance materiality.^[2]
- b) Explain and calculate materiality levels from financial information.^[2]
- c) Discuss the effect of fraud and misstatements on the audit strategy and extent of audit work.^[2]
- d) Discuss the responsibilities of internal and external auditors for the prevention and detection of fraud and error.^[2]
- e) Explain the auditor's responsibility to consider laws and regulations.^[2]

5. Analytical procedures

- a) Describe and explain the nature, and purpose of, analytical procedures in planning.^[2]
- b) Compute and interpret key ratios used in analytical procedures.^[2]

6. Planning an audit

- a) Identify and explain the need for planning an audit.^[2]
- b) Identify and describe the contents of the overall audit strategy and audit plan.^[2]
- c) Explain and describe the relationship between the overall audit strategy and the audit plan.^[2]
- d) Explain the difference between interim and final audit.^[1]
- e) Describe the purpose of an interim audit, and the procedures likely to be adopted at this stage in the audit.^[2]
- f) Describe the impact of the work performed during the interim audit on the final audit.^[2]

7. Audit documentation

- a) Explain the need for, and the importance of, audit documentation.^[1]
- b) Describe the contents of working papers and supporting documentation.^[2]
- c) Explain the procedures to ensure safe custody and retention of working papers.^[1]

D INTERNAL CONTROL

The following transaction cycles and account balances are relevant to this capability:

- revenue,
- purchases,
- inventory,
- revenue and capital expenditure,
- payroll,
- bank and cash.

1. Internal control systems

- a) Explain why an auditor needs to obtain an understanding of internal control relevant to the audit.^[1]
- b) Describe and explain the five components of an internal control system of the control environment, the entity's risk assessment process, the information system, including the related business processes, relevant to financial reporting, and communication, control activities relevant to the audit, and monitoring of controls.^[2]
- c) Discuss the difference between tests of control and substantive procedures.^[2]

2. The use of internal control systems by auditors

- a) Explain how auditors record internal control systems including the use of, narrative notes, flowcharts, internal control questionnaires and internal control evaluation questionnaires.^[2]
- b) Explain how auditors identify deficiencies and significant deficiencies in internal control systems and how those significant deficiencies limit the extent of auditors' reliance on those systems.^[2]

3. Transaction cycles

- a) Explain, analyse and provide examples of internal control procedures and control activities.^[2]
- b) Provide examples of computer system controls.^[2]

4. Tests of control

- a) Explain and tabulate tests of control suitable for inclusion in audit working papers.^[2]
- b) List examples of application controls and general IT controls.^[2]

5. The evaluation of internal control components

- a) Analyse the limitations of internal control components in the context of fraud and error.^[2]

- b) Explain the need to modify the audit strategy and audit plan following the results of tests of control.^[1]
- c) Identify and explain management's risk assessment process with reference to internal control components.^[1]

6. Communication on internal control

- a) Discuss and provide examples of how the reporting of internal control significant deficiencies and recommendations to overcome those significant deficiencies are provided to management.^[2]

E AUDIT EVIDENCE

1. The use of assertions by auditors

- a) Explain the assertions contained in the financial statements.^[2]
- b) Explain the assertions in relation to classes of transactions, account balances, and presentation and disclosures.^[1]
- c) Explain the use of assertions in obtaining audit evidence.^[2]

2. Audit procedures

- a) Discuss the quality and quantity of audit evidence.^[2]
- b) Discuss the relevance and reliability of audit evidence.^[2]
- c) Discuss the procedures for obtaining audit evidence.^[2]
- d) Discuss and provide examples of how analytical procedures are used as substantive procedures.^[2]
- e) Discuss the problems associated with the audit and review of accounting estimates.^[2]
- f) Describe why smaller entities may have different control environments and describe the types of evidence likely to be available in smaller entities.^[1]

- g) Explain the auditor's responsibilities and describe procedures to be applied in relation to opening balances and comparative information.^[2]

3. The audit of specific items

For each of the account balances stated in this sub-capability:

- explain the purpose of substantive procedures in relation to assertions,
 - explain the substantive procedures used in auditing each balance.
- a) Receivables:^[2]
 - i) direct confirmation of accounts receivable
 - ii) other evidence in relation to receivables and prepayments, and
 - iii) the related profit or loss section (income statement) entries.
 - b) Inventory:^[2]
 - i) inventory counting procedures in relation to year-end and continuous inventory systems
 - ii) cut-off
 - iii) auditor's attendance at inventory counting
 - iv) direct confirmation of inventory held by third parties,
 - v) valuation
 - vi) other evidence in relation to inventory.
 - c) Payables, accruals, provisions and contingencies:^[2]
 - i) supplier statement reconciliations and direct confirmation of accounts payable,
 - ii) obtain evidence in relation to payables and accruals, and
 - iii) the related profit or loss section (income statement) entries.
 - d) Bank and cash:^[2]
 - i) bank confirmation reports used in obtaining evidence in relation to bank and cash
 - ii) other evidence in relation to bank and cash, and
 - iii) the related profit or loss section (income statement) entries.
 - e) Tangible and intangible non-current assets and non-current liabilities:^[2]

- i) evidence in relation to non-current assets and
- ii) non-current liabilities and
- iii) provisions and
- iv) the related profit or loss section (income statement) entries.

- f) Share capital, reserves and directors' emoluments:^[2]
 - i) evidence in relation to share capital, reserves and directors' emoluments, and
 - ii) the related profit or loss section (income statement) entries.

4. Audit sampling and other means of testing

- a) Define audit sampling and explain the need for sampling.^[1]
- b) Identify and discuss the differences between statistical and non-statistical sampling.^[2]
- c) Discuss and provide relevant examples of, the application of the basic principles of statistical sampling and other selective testing procedures.^[2]
- d) Discuss the results of statistical sampling, including consideration of whether additional testing is required.^[2]

5. Computer-assisted audit techniques

- a) Explain the use of computer-assisted audit techniques in the context of an audit.^[1]
- b) Discuss and provide relevant examples of the use of test data and audit software for the transaction cycles and balances mentioned in sub-capability 3.^[2]

6. The work of others

- a) Discuss why auditors rely on the work of others.^[2]
- b) Discuss the extent to which auditors are able to rely on the work of experts.^[2]
- c) Discuss the extent to which external auditors are able to rely on the work of internal audit.^[2]

- d) Discuss the audit considerations relating to entities using service organisations.^[2]
- e) Explain the extent to which reference to the work of others can be made in audit reports.^[1]

7. Not-for-profit organisations

- a) Apply audit techniques to not-for-profit organisations.^[2]
- b) Explain how the audit of not-for-profit organisations differs from the audit of for-profit organisations.^[1]

F REVIEW

1. Subsequent events

- a) Explain the purpose of a subsequent events review.^[1]
- b) Explain the responsibilities of auditors regarding subsequent events.^[1]
- c) Discuss the procedures to be undertaken in performing a subsequent events review.^[2]

2. Going concern

- a) Define and discuss the significance of the concept of going concern.^[2]
- b) Explain the importance of and the need for going concern reviews.^[2]
- c) Explain the respective responsibilities of auditors and management regarding going concern.^[1]
- d) Identify and explain potential indicators that an entity is not a going concern.^[2]
- e) Discuss the procedures to be applied in performing going concern reviews.^[2]
- f) Discuss the disclosure requirements in relation to going concern issues.^[2]
- g) Discuss the reporting implications of the findings of going concern reviews.^[2]

3. Written representations

appropriate recommendations to management and those charged with governance.^[2]

- a) Explain the purpose of and procedure for obtaining written representations.^[2]
- b) Discuss the quality and reliability of written representations as audit evidence.^[2]
- c) Discuss the circumstances where written representations are necessary and the matters on which representations are commonly obtained.^[2]

4. Audit finalisation and the final review

- a) Discuss the importance of the overall review of evidence obtained.^[2]
- b) Describe procedures an auditor should perform in conducting their overall review of financial statements.^[2]
- c) Explain the significance of uncorrected misstatements.^[1]
- d) Evaluate the effect of dealing with uncorrected misstatements.^[2]

G REPORTING

1. Audit reports

- a) Describe and analyse the format and content of unmodified audit reports.^[2]
- b) Describe and analyse the format and content of modified audit opinions.^[2]
- c) Describe the format and content of emphasis of matter and other matter paragraphs.^[2]

2. Reports to management

- a) Identify and analyse internal control and system deficiencies and significant deficiencies and their potential effects, and make appropriate recommendations to management and those charged with governance.^[2]

3. Internal audit reports

- a) Describe and explain the format and content of internal audit review reports and make

SUMMARY OF CHANGES TO F8

ACCA periodically reviews its qualification syllabuses so that they fully meet the needs of stakeholders such as employers, students, regulatory and advisory bodies and learning providers.

The main areas that have been clarified in the syllabus (all were implicitly included previously) are shown in Table 1 below:

Table 1 – Amendments to F8

Section and subject area	Syllabus content
C2b) Risk assessment	Auditor's response to risk
E2c) Audit procedures	Procedures for obtaining audit evidence
E3e) The audit of specific items	Intangible assets
E3e)	Provisions
F1b) Subsequent events	Auditors' responsibilities regarding subsequent events
F4b) Audit finalisation and the final review	Procedures in conducting an overall review
G1c) Audit reports	Emphasis of matter and other matter paragraphs

There have been no additions to, or deletions from, the syllabus.
